BROADCASTING AND CABLE TELEVISION  
WORKERS SECTOR OF THE COMMUNICATION  
WORKERS OF AMERICA, LOCAL 16, AFL-CIO,  
CLC,

: Respondent. :

-----x  
STATE OF CALIFORNIA )  
 ) ss.:  
COUNTY OF LOS ANGELES )

GRACE YANG, being duly sworn deposes and says,

1. I am employed as a manager in the special reviews group in the Management Audit department (“MA”) of The Walt Disney Company (“TWDC”). I submit this affidavit in further support of TWDC’s motion for a protective order and/or to quash the subpoena, and in opposition to the cross-motion of Respondent National Association of Broadcast Employees & Technicians, the Broadcasting and Cable Television Workers Sector of the Communication Workers of America, Local 16, AFL-CIO, CLC (“NABET-CWA, Local 16”) to compel.<sup>1</sup> I have personal knowledge of the facts stated herein, unless otherwise indicated.

---

<sup>1</sup> Unless otherwise stated, defined terms herein have the same meaning as in my August 4, 2010 Affidavit.

2. I have reviewed the August 9, 2010 Affidavit of David Mintz, counsel for NABET-CWA, Local 16, and respond herein to some of the numerous inaccuracies and distortions of my hearing testimony contained therein. Contrary to Mr. Mintz, ABC Inc. did not “turn over” the investigation at issue to TWDC. Rather, as set forth in my August 4, 2010 Affidavit, upon TWDC’s receipt of the complaint from the Studio concerning the unauthorized release of the Studio’s screener on the internet, MA and TWDC’s corporate legal anti-piracy department partnered with ABC’s Labor Relations department to investigate the allegations that ultimately led to Mr. Pinkava’s termination. *See, also*, pages 57-58 of the transcript of my June 23, 2010 arbitration hearing testimony (“June 23 Tr.”); copies of the cited pages of the June 23 Tr. are annexed hereto as Exhibit A. Also contrary to Mr. Mintz, a majority of the investigation was directed from California, including Mr. Pinkava’s interview, in which I participated by telephone, not in person. *Id.* at page 124:21.

3. Mr. Mintz is also wrong in asserting that the computer forensic report of Mr. Pinkava’s computer that was marked at the hearing as Employer Exhibit 8 was “compiled” or “extracted” from the privileged memorandum (the “Memorandum”) at issue in these motions. A copy of Employer Exhibit 8 is annexed hereto as Exhibit B. As I made clear during my July 13, 2010 testimony, Employer Exhibit 8 was created in preparation for the arbitration. *See* transcript of my July 13, 2010 arbitration hearing testimony (“July 13 Tr.”), at 258:5-7, copies of the cited pages of which are annexed hereto as Exhibit C. All of the information contained in Employer Exhibit 8 was extracted from a forensic report prepared by Tim Gruber that contained forensic computer information for Mr. Pinkava (the “Gruber Report”). *See* Exhibit C, July 13 Tr. at 258:21-259:7; 263-266:3. The Gruber Report also contains a summary of the investigation’s findings. *See* Exhibit C, July 13 Tr. at 189-190. In fact, at the hearing, Mr. Mintz

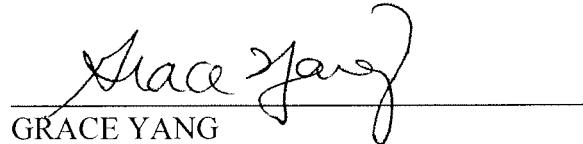

introduced the Gruber Report into evidence as Union Exhibit 3 to compare the two reports (Employer Exhibit 8 and Union Exhibit 3) and had me confirm they were virtually identical with respect to the material pertaining to Mr. Pinkava. *See* Exhibit C, July 13 Tr. at 263-265; a copy of Union Exhibit 3 is annexed hereto as Exhibit D. During the July 13, 2010 hearing, I repeatedly confirmed to Mr. Mintz that Employer Exhibit 8 was extracted almost word for word from the Gruber Report (Union Exhibit 3), thereby leaving no doubt that Employer Exhibit 8 was not extracted or compiled from the Memorandum as Mr. Mintz now asserts. *Id.* For purposes of clarity, the document to which I am referring at line 24, page 148 of the June 23 Transcript is the privileged memorandum that I prepared to obtain legal advice from Jacob M. Yellin, TWDC's in-house corporate counsel, and which is the subject of the Subpoena. However, Employer Exhibit 8 was neither extracted nor compiled from that privileged memorandum. In fact, as I testified, the only document that I used to create Employer Exhibit 8 was Union Exhibit 3. *See* Exhibit C, July 13 Tr. at 265.

4. As stated in my August 4, 2010 Affidavit, the Memorandum contains the conclusions, recommendations and actions taken as a result of the investigation that resulted from the Studio's complaint. In this regard, the Memorandum summarizes the conclusions, recommendations and actions concerning the fifteen employees who were interviewed in connection with MA's investigation. It is my understanding that any notes that I took during the interviews that I attended have been turned over to respondent's counsel.

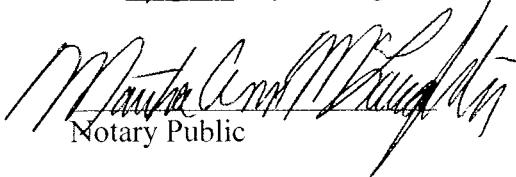

5. Finally, there is also no basis for Mr. Mintz's statement that I reviewed the Memorandum in preparation for my July 13, 2010, testimony or to refresh my recollection. Had he not cut me off in the middle of my answer, Mr. Mintz would have learned that I reviewed the Memorandum in the ordinary course of my business duties as a special reviews manager of MA

and as part of my communications with Mr. Yellin to obtain his legal advice, and that there was no correlation between my review of the Memorandum and my testimony at the arbitration on July 13, 2010.

6. Wherefore, for the foregoing reasons, I respectfully request that the Court grant TWDC's motion in its entirety and quash the Subpoena and deny respondent's cross-motion.

  
GRACE YANG

2 standards of business conduct in their  
3 employee orientation. In addition to that,  
4 they receive a copy in their compliance  
5 training of the standards of business conduct.

6 MR. MINTZ: Did you say annual  
7 compliance training?

8                   THE WITNESS: Annual compliance  
9 training. And it is also available in our  
10 company's intranet. It's also available  
11 through your supervisors, through your human  
12 resources department. It's available within  
13 the company.

14 MR. MINTZ: Okay.

15 Q. Now, let's -- let's turn to the case at  
16 hand.

At some point earlier this year, did you participate in an investigation with the company's anti-piracy group?

20 A. Yes, I did.

21 Q. Okay. And who did you work with from  
22 the company's anti-piracy group in that  
23 investigation?

24 A. I worked primarily with Joe Woodall.

25 Q. Who is Joe Woodall?

## Arbitration

June 23, 2010

58

1 Direct -- Yang

2           A.       He is the director of corporate  
3 anti-piracy. I also worked with Jonathan  
4 Whitehead.

5 Q. Okay.

A. He's the VP of corporate anti-piracy.

7 Q. Okay.

8           A.       As well as Chris Sendejas, who is  
9       also -- S-E-N-D-E-J-A-S -- who's another director  
10      within corporate anti-piracy.

11 Q. Okay. And what did that investigation  
12 involve?

13                   MR. MINTZ: Excuse me, I just didn't get  
14                   the second name, John something.

15 MS. MOONEY: Chris Sendejas.

16 MR. MINTZ: NO, John something.

17 MS. MOONEY: Whitehead.

18 MR. MINTZ: Okay.

19 | THE WITNESS: John

Q. What did that investigation involve?

21 A. I was contacted by Jonathan Whitehead

22 our head of corporate anti-piracy for content --  
23 creative content, which includes film and  
24 television shows. He informed me that NBC  
25 Universal's attorneys contacted him in regards to

Arbitration

June 23, 2010

124

1 Direct -- Yang

2 Q. Okay. All right. And when did you  
3 interview Mr. Pinkava?

4 A. It was on February 17th of this year.

5 Q. Okay. And can you give us who was  
6 present, where you were, just the details?7 A. Sure. I was in Glendale, in my office.  
8 I participated by phone.

9 Q. Okay.

10 A. In person, Scott Pinkava was there,  
11 Kathy Henry, the union representative, was there.

12 Q. Okay.

13 A. Renu Thomas was there representing  
14 management and yourself.15 Q. Okay. And was there anyone with you in  
16 California?17 A. Also by phone was Joe Woodall from  
18 corporate anti-piracy and Chris Sendejas and you.19 Q. Okay. And you mentioned that this was  
20 conducted over the phone?

21 A. Yes, that's correct.

22 Q. It wasn't a video conference, you  
23 couldn't see --

24 A. No.

25 Q. Okay. Who conducted the interview?

1 Voir dir -- Yang

2 | it comes.

I do want to see if we can accomplish as much as possible today with Ms. Yang and her testimony. So I will provisionally admit Employer Exhibit 8 subject to any en camera inspection I perform on the larger document, which then will enable the union to determine whether this is, in fact, a fair and accurate copy and complete copy of what it purports to be. Okay?

12                   MR. MINTZ: The only other thing I might  
13                   ask the witness on voir dir is to describe  
14                   what the underlying documents are that were  
15                   related to this document and her  
16                   investigation.

17 THE WITNESS: Certainly.

18                   The underlying document comes from a  
19                   computer forensics report of all computers  
20                   that we investigated in this matter.

21 Q. Is there a document that has your  
22 recommendations or your analysis or your  
23 conclusions?

24 A. There is such a document.

25 | MR. MINTZ: Okay, I would also like to

## Yang Reply Affidavit

## Exhibit B

Computer Forensics Evidence for Scott Pinkava

Device Name	IP Address	Program	Installed By	Install Date	Last Used	Removed
Maya 1 util pc	167.13.14.17	DVDFab	PinkavS	5/21/2009	1/5/2010	2/16/2010

A search resulted in finding a folder on the "G" drive of this computer at G:\Movies\=Moved to QT\It's Complicated. The folder structure of the "G:\Movies" folder is depicted below:

Analysis of the Windows NTFS permissions on the objects contained in the "Movies" folder and sub-folders revealed the owner of those directories, subdirectories, and files to be the user with Security Identifier (SID) S-1-5-21-3171633924-1924068845-2714224623-1805 who was identified as user **pinkavs** (Pinkava, Scott). The files located in the "It's Complicated" folder were extracted to the examiner's machine and were found to be the component files for a "screener" DVD copy of the movie "Its Complicated".

Examiner was able to create a full DVD copy of the subject movie and play it on the examiner's computer. Selected screen shots are provided at Appendix A to this report.

Analysis of the metadata associated with the subject files indicate they were created/copied to this location on 12/18/2009 at approximately 1411.

There were also several software tools found on the computer that could be used to defeat the copy protection found on commercial DVDs as well as programs for editing, copying, and mastering DVDs. These included **DVD Shrink**, **DVD Decrypter**, various **Adobe** video editing tools and **Nero** DVD burning software.

In addition to the subject movie, evidence was also found that this user copied other movies including "Funny People", "Paths of Glory", "Two Moon Junction", "Little Deiter Needs to Fly", "Van Wilder Unrated", "Meatloaf and the Melbourne Symphony", "The Thin Red Line", "Looney Tunes Volumes 2, 3, and 4", "Tenacious D Pick of Destiny", "Meet Karl Pilkington - Ricky Gervais - Politics", "Dirty Harry", and "One Flew Over the Cuckoo's Nest", "Futurama", and "Hellgate London". Several of these movies including "The Fury", "Paths of Glory" and "Two Moon Junction" had actually been rendered to DVD .ISO format which is a popular format for sharing and transporting the contents of a DVD or CD. There is no evidence that any movie files were in a format compatible with the iPod (e.g., m4a).

This machine also contained Windows system restore points data. A listing of this data is provided in Appendix B to this report.

1                   Cross -- Yang

2         A.     We did not find other evidence of It's  
3 Complicated on our Company machines.

4         Q.     Other than, for example, you found  
5 evidence of Ms. Ventura watching It's Complicated  
6 on a Company machine?

7         A.     That's correct.

8         Q.     And you found evidence that Karen  
9 Steckler watched It's Complicated on a Company  
10 machine on December 24th at 7:45, did you not?

11        A.     We did find evidence that she watched it  
12 on a Company machine. I would again have to verify  
13 the dates and the time with my notes.

14        Q.     Thank you. Okay.

15                  Now, I also had an opportunity to review  
16 your e-mails, or the e-mails that were collected,  
17 not your e-mails.

18        A.     Okay.

19        Q.     I didn't want to scare you.

20        A.     I'm not scared, I know it's Company  
21 property and it can be reviewed.

22        Q.     I had a chance to review the e-mails  
23 that you reviewed. Let me ask you this.

24                  The employees whose e-mails you  
25 reviewed, communicated about passing around movies,

190

1                   Cross -- Yang

2 did they not?

3                 A. Several employees, yes, we found  
4 evidence they were sharing movies.

5                 Q. In fact, it almost seemed like they have  
6 a movie club, correct?

7                 MS. MOONEY: Objection.

8                 THE ARBITRATOR: Sustained.

9                 Q. Now, what document did you produce,  
10 based on your investigation, that summarized for  
11 the Company which employees reviewed or had copies  
12 of It's Complicated, at ABC?

13                 A. The most complete document would be a  
14 report that I prepared for legal advice to an  
15 attorney named Jackie Yellin.

16                 Q. So that is the only document, which you  
17 are now calling that you prepared for legal advice,  
18 that summarizes your findings as to who viewed or  
19 had a copy of It's Complicated?

20                 A. That document certainly gives a summary  
21 of all the evidence that we found in our  
22 investigation. The other documents that would  
23 contain that information would be Tim Gruber's  
24 computer forensic reports.

25                 Q. So there's that document you are

258

1 Cross -- Yang

2 | 8 ?

MS. MOONEY: Let me get you a copy.

Computer forensics for Scott Pinkava.

5 Q. Company Exhibit 8 was the document that  
6 you created in preparation for this arbitration?

7 A. Correct.

8 Q. That was introduced through you, too,  
9 right?

10 A. Correct.

11 Q. On page 4 of that document, you have the  
12 data relating to It's Complicated?

13 A. Yes.

14 Q. Yes. And just for my own edification,  
15 Ms. Yang, if you look at, on 12/18 this It's  
16 Complicated file was created at 14:11 as opposed to  
17 14:32, which is on Company 7. Do you see that?

18 A. I see that.

Q. Why is there a different time?

A. I'm not sure. I would ask Tim Gruber.

Q. Well, let me ask you this: Is Company 8  
a computer-generated form or a hand-generated  
document?

24 A. Exhibit 8?

25 Q. Uh-huh.

1

Cross -- Yang

2

A. This is a hand-generated report.

3

Q. Okay. So you can't explain why there's a different time for when these files were created?

5

A. That's correct. This was information extracted from Tim Gruber's forensic report related just to Mr. Pinkava.

8

Q. Do you think there's a mistake on these documents, or do you think that the software was showing -- what do you know? You don't know?

11

A. I don't know. I would ask Tim.

12

Q. Did you ask Tim?

13

A. I didn't ask him about the differences in time.

15

Q. Okay. So, this, these restore points -- this is, so I understand this, this restore points are on the broadcast computer, correct?

18

A. Correct.

19

Q. That's Company 7. And Company 8, even though it is for the same files, it has a slightly different time, the difference between 14:11 and 14:32, correct?

23

A. Yes, I see here.

24

Q. Okay. Now, you testified before that the IP address for the NENA computer, the Maya 1

263

1                   Cross -- Yang

2                 Q. -- anyone who had It's Complicated had  
3     already copied and decrypted it, could have put  
4     this on this computer, right?

5                 A. It's a possibility.

6                 Q. My point is, you have no evidence  
7     Mr. Pinkava or anyone else actually used decryption  
8     software on It's Complicated?

9                 A. That's correct.

10                MR. MINTZ: Madam Arbitrator, I just  
11     need a minute.

12                THE ARBITRATOR: Sure.

13                Q. Now, looking at Company Exhibit 8.

14                A. Yes.

15                Q. Which, you testified that's a report you  
16     created?

17                A. Yes, I created this report. Again,  
18     there was an extraction from Tim Gruber's forensic  
19     report.

20                Q. Ms. Yang, with all due respect, I mean  
21     this, sincerely, isn't this report that you created  
22     word for word from the Gruber report?

23                A. Yes.

24                Q. There's one sentence difference?

25                A. Right.

264

1 Cross -- Yang

2 Q. Other than the one sentence, it's a  
3 word-for-word extraction?

4           A.       Right.   We extracted everything from  
5   Mr. Gruber's report related to Pinkava for this

6 Q. I'm talking about, the narrative is word  
7 for word from Mr. Gruber's report, except for one  
8 sentence, correct?

9           A.       This one sentence, this part here is an  
10          extraction from Susan Renner's report.

11 MS. MOONEY: Which part are you  
12 referring to?

13 THE WITNESS: The very top of the  
14 computer forensic.

15 MR. MINTZ: Just the heading.

16 A. Other than that, it should be directly  
17 from Tim's computer forensic's report.

18 MS. MOONEY: If you don't have it David,  
19 I do.

20 MR. MINTZ: No problem, I have it.

21 | (Discussion off the record.)

22 MR. MINTZ: I would like to mark this  
23 as --

24 THE ARBITRATOR: Union 3.

25 MR. MINTZ: Union 3.

265

1                           Cross -- Yang

2                           (Union Exhibit 3, Grace Yang's report,  
3                           marked for identification, as of this date.)

4                           THE ARBITRATOR: Thank you.

5                           MS. MOONEY: Thank you.

6                           Q. Now, have you seen Union 3 before?

7                           A. Yes, I have.

8                           Q. And just so we are clear, Union 3, just  
9 turning to page 4 of Union 3 -- I'm sorry, I  
10 withdraw that.

11                          So Company 8 was produced from Union 3?

12                          A. Correct; for the most part, yes.

13                          Q. When you say, for the most part, I mean,  
14 virtually everything Mr. Gruber wrote in Union 3 is  
15 in your Company 8, right?

16                          A. That's right.

17                          Q. Except for that last sentence, which  
18 Mr. Gruber did not have when he did the report, and  
19 that last sentence is on Company 8, where it says,  
20 the second to the last sentence, on page 1, There  
21 is no evidence that any movie files were in a  
22 format compatible with the iPod, correct?

23                          A. Correct. It was added. I asked him to  
24 go back and follow up after Mr. Pinkava's  
25 interview.

266

1 Cross -- Yang

2 Q. So you added that?

3 A. Right.

4 Q. Now, looking at both -- looking at Union  
5 8 --

6 THE ARBITRATOR: Employer 8 or Union 3?

7                           MR. MINTZ: I'm sorry, Company 8 and  
8 Union 3.

9 Q. Do you see, Moved to QT and Funny  
10 People, It's Complicated --

11 A. Yes.

Q. -- that diagram of the folders?

15 A. Yes.

16 Q. Is that what appears on the screen in  
17 the computer?

18 A. I believe this is what Tim took a  
19 snapshot of using the program, Encase.

20 Q. When you turn on the computer, is this  
21 what you see on the screen, or is this produced by  
22 Encase, or don't you know?

23 A. I would ask Tim that.

24 Q. I know, but I'm asking you. You don't  
25 know?

Civil Action No. 10 Civ. 5982 (SHS)

## Yang Reply Affidavit

## Exhibit D

<b>REPORT OF COMPUTER FORENSIC EXAMINATION</b>		<b>CASE NUMBER</b> 2010-002 Supplement 1 
<b>PAGE 1 of 11 PAGES</b>		

REQUESTOR	REQUESTOR'S DEPARTMENT	REQUESTOR'S PHONE #
Grace F. Yang	CMA Special Reviews	818-553-4086

**EXAM PRETEXT/CASE SUMMARY**

Examination was requested of five additional computers that had been used by various members of the ABC Television Graphics Art team in New York to determine if any of the computers had been used to view, duplicate, or upload an NBC/Universal Pictures screener DVD of the movie "It's Complicated" (the subject movie) and to determine the identities of any staff members who may be involved. This is a supplement to the initial report on this matter which includes many of the case details.

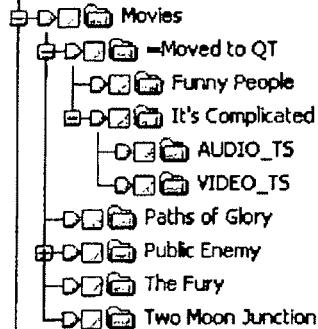

**EXAMINATION FINDINGS**

ITEM NUMBER	ITEM DESCRIPTION	SERIAL NUMBER	MODEL NUMBER
1	Computer Workstation	MAYA_1HP	Not Applicable

**FINDINGS SUMMARY**

Examination of this computer was undertaken after ABC TV Director Ralph Maese conducted a Windows search on the five computers of interest for any occurrences of the term "It's Complicated" or "It's Complicated".

This search resulted in finding a folder on the "G" drive of this computer at G:\Movies\=Moved to QT\It's Complicated. The folder structure of the "G:\Movies" folder is depicted below:

Analysis of the Windows NTFS permissions on the objects contained in the "Movies" folder and sub-folders revealed the owner of those directories, subdirectories, and files to be the user with Security Identifier (SID) S-1-5-21-3171633924-1924068845-2714224623-1805 who was identified as user **pinkava** (Pinkava, Scott). The files located in the "It's Complicated" folder were extracted to the examiner's machine and were found to be the component files for a "screener" DVD copy of the movie "It's Complicated".

Examiner was able to create a full DVD copy of the subject movie and play it on the examiner's computer. Selected screen shots are provided at Appendix B to this report.

Analysis of the metadata associated with the subject files indicate they were created/copied to this location on 12/18/2009 at approximately 1411.

There were also several software tools found on the computer that could be used to defeat the copy protection found on commercial DVDs as well as programs for editing, copying, and mastering DVDs. These included **DVD Shrink**, **DVD Decrypter**, various **Adobe** video editing tools and **Nero** DVD burning software.

In addition to the subject movie, evidence was also found that this user copied other movies including "Funny People", "Paths of Glory", "Two Moon Junction",

**CONFIDENTIAL**

<b>REPORT OF COMPUTER FORENSIC EXAMINATION</b>	CASE NUMBER 2010-002 Supplement 1	 PAGE 2 of 11 PAGES
--	--------------------------------------	---

"Little Deiter Needs to Fly", "Van Wilder Unrated", "Meatloaf and the Melbourne Symphony", "The Thin Red Line", "Looney Tunes Volumes 2, 3, and 4", "Tenacious D Pick of Destiny", "Meet Karl Pilkington - Ricky Gervais - Politics", "Dirty Harry", and "One Flew Over the Cuckoo's Nest", "Futurama", and "Hellgate London". Several of these movies including "The Fury", "Paths of Glory" and "Two Moon Junction" had actually been rendered to DVD .ISO format which is a popular format for sharing and transporting the contents of a DVD or CD.

Because of time constraints, the examiner was not able to analyze the Internet history or other artifacts for this user.

Additional study would need to be undertaken to determine if there was any evidence on this computer that this user uploaded the movie to the Internet.

#### FORENSIC METHODOLOGY USED

The software used to image and examine the media devices was Guidance Software's Encase Enterprise Edition version 6.15. This software is widely used today and is accepted by law enforcement agencies throughout the United States and abroad. Encase has been tested in several court cases and has gained the approval of the courts as a software tool capable of generating court quality evidence. Transferring evidence files is facilitated when using Encase due to its wide acceptance and use. For these reasons the software was selected as the software to be used for this examination.

Once the target computer was identified and located, the Encase servlet was deployed and started on the computer. The servlet was configured so that it was incapable of making any changes to the hard drive once it was installed..

The Encase program was activated and the data from the hard drives was previewed for analysis. Previewing provides the examiner with the ability to quickly assess the data on the media and can provide a basis for closer examination of the most pertinent media.

The forensic analysis entailed a thorough review of all pertinent data on the hard drive. This analysis included data still resident on the media devices and identifiable through the operating system. Due to time constraints, data from unallocated clusters was not examined.
